## Editorial

Three weeks ago, more than 175 Corrugated Industry leaders from around the globe attended

the International Corrugated Case Association (ICCA) Global Summit in Palm Beach FL. It was a great time of learning, networking and sharing of best practices. Global issues which face our industry were discussed and actions are underway to tell our wonderful corrugated story and to address any misinformation that might exist. Outside speakers from Walmart, IKEA, Ocean Conservancy and World Wildlife Fund (WWF) shared their perspectives on packaging and the environment. Attendees left the event energized and looking forward to the 2021 Global Summit in Europe.

Later this year, another global event will occur in Palexpo, Geneva. FEFCO will host its biennial FEFCO Technical Seminar on October 9-11, 2019. More than 1,000 participants from over 40 countries are expected to attend and discuss the pertinent topics of our industry. There is no other conference available that focuses solely on the corrugated industry and tackles such topics as order entry, paper parameters, digital printing, predictive maintenance, test methods, e-commerce, artificial intelligence and the impact of legislative changes in Europe and other parts of the world. The event also includes a machinery and industry supplier exhibition, along with conference sessions especially put together for corrugated board manufacturers. Whereas ICCA focused its agenda on strategic topics such as communications and the environment, the FEFCO Technical seminar will place its emphasis on the technical issues surrounding our converting plants and paper supply. FEFCO has graciously opened this event to our ICCA Associations and its members. I encourage you to clear your calendars and plan to attend this great event. You will definitely leave with more knowledge and enthusiasm about our industry.

**Dennis J. Colley**  
ICCA President & CEO

## From 9 - 11 October 2019, the FEFCO Technical Seminar is the place to be!

The FEFCO Technical Seminar is the only platform in Europe offering the corrugated industry an incomparable combination of high-level seminar sessions, supplier spotlight presentations and an exhibition.

### Why attend?

The FEFCO Technical Seminar is a very efficient and cost-effective way to meet most of your suppliers in a relaxed but professional environment. Already more than 90 exhibitors have booked a stand.

If you want to maximise your presence in Geneva, come and attend the conference sessions. They offer a good training opportunity, tailor-made for managers working in production, maintenance, logistics, R&D and marketing.

**The 2019 theme is Mastering our processes**, a topic chosen by the FEFCO Production Committee for the corrugated audience.

This year, all lunches and coffee breaks will take place on the exhibition space. This means even more time to meet your suppliers and exchange with FEFCO members from all over Europe and beyond. FEFCO is pleased that for the first time, ICCA corrugated members will be able to participate and take home useful knowledge to meet the future challenges of the corrugated industry.

Moreover, Geneva is in the heart of Europe and very easy to reach. Palexpo is located

within walking distance from the airport, making it even more convenient for you! Hotels are all located near the venue, creating many opportunities to mingle with your peers.

The FEFCO Technical Seminar has been growing steadily for more than 10 years. Why? Probably because it is highly focused, inspiring and targeted. Members remain engaged throughout the whole seminar. We count on your presence to make this event another successful one! We would be very pleased to hear our members say again "Wow! That was the best FEFCO technical seminar ever!"

**There is still time to register for this highly focused and valuable event for corrugated professionals! There is so much going on in the sustainable packaging world. Don't miss out!**

**Angelika Christ**  
Secretary General  
FEFCO

# Programme Highlights

The 2019 event will focus on “Mastering our processes” where, with our suppliers, we will take our industry to the next level, improving and innovating both for today and the future.

## Day 1

**9 OCTOBER 2019**

The conference will tell the story of a box from the customer order through the corrugating process to final delivery.

The first session will explore market challenges and technological innovations and their impact on order management planning.

Paper is a beautiful material, but it's not always easy to work with. Temperature,

moisture and other factors have a huge impact on the corrugating process and the quality of the board produced. We will examine ways to achieve the flatness, strength and printability our customers demand.

This will be followed by a review of EU policies and their impact on corrugated. The EU focus on plastic presents new opportunities for materials like corrugated packaging, but it also sets challenges and limitations in the long run.

**Production Committee chairs:** Łukasz Nęcki, AQUILA VPK - Mihnea Baldea, Rondo - Semih Çelebi, Olmuksan International Paper

## Day 2

**10 OCTOBER 2019**

The second day will start by exploring the possibilities of digital in converting and how it can drive improvements and add value. Is a move completely to digital a real option?

Maintenance is key for any production environment. This session will focus on mastering predictive maintenance to improve reliability, using a practical example to show the challenges and benefits.

Artificial Intelligence is the latest buzz word but does it have a role in the corrugated industry? We will hear how we can use Artificial Intelligence (AI) to optimise the production process, reliability and resources.

**The FEFCO Technical Seminar is the only event in Europe that offers infinite opportunities to broaden your knowledge, grow your network, discuss with peers, meet suppliers and discover fascinating innovations.**

**Marc Van Damme**  
PC Chairman

## Members of the Production Committee

**Chairman:**  
**Marc Van Damme**  
VPK Packaging,  
Belgium

**Klaus Lücke**  
Klinge, Germany

**Edoardo Finotti**  
Model, Switzerland

**Łukasz Nęcki**  
AQUILA -VPK, Poland

**Astrid Glasenapp-Odeberg**  
Innventia, Sweden

**Julian Pachniewski**  
VDW, Germany

**Krassimira Kazashka**  
FEFCO

**Steve Parr**  
Smurfit Kappa, UK

**Semih Celebi**  
International Paper,  
Turkey

**Antoine Renaer**  
DS Smith Packaging,  
Belgium

Not shown:  
**Hervé Dehaynin**  
SAICA

FEFCO has updated the folding standard as part of the standards for converting equipment. The update offers a tool for companies to evaluate the folding quality of the boxes with a statistically sound approach.

Creep is a problem for corrugated packaging. We will hear about new counter measures providing a radically new concept in controlling moisture.

The market and EU institutions are becoming increasingly attentive to the safety of materials and articles in contact with food, and this includes corrugated. We will examine ways to measure migration and demonstrate compliance with legislation.

**Production Committee chairs:**

Klaus Lüke, Klingele - Edoardo Finotti, Model - Astrid Odeberg Glasenapp, RISE

**Day 3**

**11 OCTOBER 2019**

E-commerce offers real opportunities for growth in corrugated, but can the business keep up with the speed? We will hear views from both sides of the Atlantic.

Consumers are becoming more environmentally aware and socially conscious. We will look at how to step up our value proposition and show the sustainability of corrugated products.

The FEFCO Health & Safety Committee has a strong focus on machine safety. We'll learn how it works together with suppliers to improve safety at our production sides.

Having good employees is key to business continuity. How can our industry find good employees, train them to be agile and keep them motivated to stay? You will hear case studies from across our industry.

Finally, we will challenge common beliefs about the corrugated business by offering a new perspective and market approach. We will round off with a panel discussion by high level representatives from our industry.

**Mastering our processes is continuous learning and getting a little better every day!**

**Klaus Lüke  
Klingele**

**The FEFCO technical seminar offers an excellent opportunity to find out about the latest technical innovations in our industry, meet good friends and exchange knowledge. I'm delighted to welcome you to Geneva, a beautiful city with international appeal. Switzerland has packaging and innovation in its blood – an exceptional event is guaranteed!**

**Edoardo Finotti  
Model**

## Conference Programme

DAY 1 - WEDNESDAY 09 OCTOBER	
08:00	Registration opening
09:00	Welcome coffee and exhibition visit
11:00	<b>President's Welcome address</b> Jan Klingele, FEFCO President
11:20	Conference Session 1 video <b>Sessions Chaired by Łukasz Nęcki, AQUILA VPK - Mihnea Baldea, Rondo - Semih Çelebi, Olmuksan International Paper</b>
11:25	Presentations (60') • <b>Order management and planning (30')</b> Bart Verbruggen, OM Partners • <b>Temperature, moisture and paper tension – the next step on the way to achieve a better flatness of corrugated board (30')</b> Marek Motylewski, Mondi
12:25	<b>Questions and Answers (10')</b>
12:35	Break
12:45	<b>Spotlights Session 1 (45')</b>
13:30	Lunch on the exhibition floor
14:50	Presentations (80') • <b>Paper parameters and their impact on the corrugated process (30')</b> Panu Räsänen, Metsä Board • <b>Digitalization in strength estimation of corrugated materials. A new way (30')</b> Tomasz Garbowski, Femat • <b>EU policies and their impact on corrugated (20')</b> Krassimira Kazashka, FEFCO
16:10	<b>Questions and Answers (10')</b>
16:20	Coffee break and exhibition visit
17:40	<b>Spotlights Session 2 (60')</b>
19:00	Sponsored Cocktail Reception

Main Sponsor

**MetsäBoard**

DAY 2 - THURSDAY 10 OCTOBER	
08:30	Conference session 2 video <b>Conference Sessions Chaired by Klaus Lüke, Klingele - Edoardo Finotti, Model - Astrid Odeberg Glasenapp, RISE</b>
08:35	Presentations (60') <ul style="list-style-type: none"> <li>• <b>The conventional and digital way of converting (20')</b> Marcel Heller, Model - Klaus Lüke, Klingele</li> <li>• <b>Mastering maintenance – advantages and needs! (20')</b> Steve Parr, Smurfit Kappa UK</li> <li>• <b>The role of Artificial Intelligence in mastering process reliability (20')</b> Richard Jeffers, RS Components</li> </ul>
09:35	<b>Questions and Answers (10')</b>
09:45	Coffee break and exhibition visit
11:00	<b>Spotlight Session 3 (60')</b>
12:00	<b>Spotlight Session 4 (60')</b>
13:00	Lunch on the exhibition floor
14:15	Presentations (60') <ul style="list-style-type: none"> <li>• <b>New Folding Standard – FEFCO (20')</b> Michael Frey, Consultant</li> <li>• <b>Mastering moisture! (20')</b> Jesper Berthold, - Astrid Odeberg Glasenapp, RISE</li> <li>• <b>Migration, conformity and test methods – an overview! A new way of thinking (20')</b> Dr Thomas Gude, SQTS</li> </ul>
15:15	<b>Questions and Answers (10')</b>
15:25	Coffee break and exhibition visit
16:30	<b>Spotlight Session 5 (60')</b>
17:30	<b>Spotlight Session 6 (60')</b>
19:00	Exhibition closes

DAY 3 - FRIDAY 13 OCTOBER	
08:30	Conference session 3 video <b>Conference Sessions Chaired by Marc Van Damme, PC Chairman - Antoine Renaer, DS Smith - Hervé Dehaynin, SAICA - Julian Pachniewski, VDW</b>
08:35	Presentations (65') <ul style="list-style-type: none"> <li>• <b>US view on e-commerce (25')</b> Jay Singh, Orfalea College of Business</li> <li>• <b>The e-commerce experiences (20')</b> Soria Santiago, DS Smith</li> <li>• <b>Sustainability is an essential part of our business (20')</b> Outi Marin, Smurfit Kappa</li> </ul>
09:40	<b>Questions and Answers (10')</b> Steve Parr, Smurfit Kappa
09:50	Presentations (35') <ul style="list-style-type: none"> <li>• <b>Machine safety in practice (25')</b> Stefan Buchner, Smurfit Kappa - Sabine Nellen, Mondi - Richard Lancaster, VPK</li> <li>• <b>Safety Innovation Award winner presentation (5')</b></li> <li>• <b>Safety Award ceremony (5')</b></li> </ul>
10:25	Coffee break and exhibition visit
11:25	Presentations (45') <ul style="list-style-type: none"> <li>• <b>Training your employees. Good practices! (25')</b> SPP Poland, IP, Klingele</li> <li>• <b>New market approach in a new environment (20')</b> Greg Tucker, CEO Bay-Cities</li> </ul>
12:10	<b>High-level panel discussion “Looking into the future: turn challenges into opportunities”</b> Speakers: Jan Klingele, Klingele - Saverio Mayer, Smurfit Kappa - Richard Coward, VPK - Sarah Model, Model - Greg Tucker, Bay-Cities
13:10	<b>Award Ceremony and Conference closing</b>
13:40	Lunch followed by coffee on the exhibition floor
14:30	Exhibition closes - End of the Technical Seminar

## List of Exhibitors

Brand	Stand number

## Practical Information

For all practical information regarding the Technical Seminar (exhibition, registration, sponsorship, travel, hotel bookings) please visit [www.fefco.org/fefco-technical-seminar-2019](http://www.fefco.org/fefco-technical-seminar-2019)

### Registrations

It is still possible to register! For individual registrations please register online: <http://www.fefco.org/fefco-technical-seminar-2019/registration>

For group registrations please contact FEFCO.

### Spotlight sessions deadlines

- Registration for spotlight sessions: **30 June 2019**
- Spotlight file delivery to FEFCO: **31 July 2019**
- Production Committee: Spotlights presentation review and feedback to participants **30 August 2019**
- Final Spotlight file delivery to FEFCO: **13 September 2019**
- Final speaker name and presentation title to FEFCO: **13 September 2019**

### Hotel Booking

Please note that if you want to secure a room close to Palexpo, FEFCO highly recommends that you book your accommodation as soon as possible.

### Warning regarding fake hotel agencies!

Some real and fake agencies are contacting our event delegates to offer hotel reservation services at outstanding conditions. If you receive a call from anyone claiming to be booking rooms on behalf of FEFCO or Palexpo, DO NOT use their services. All reservations should be made directly with the hotels via the contact information or links on the FEFCO web site.

### Sponsorship

There are still some options available. If you would like to increase the visibility of your brand during the event, please contact: [nathalie.schneegans@fefco.org](mailto:nathalie.schneegans@fefco.org).

## Useful information

- Palexpo - Route François-Peyrot 30 Case postale 112, CH-1218 Le Grand-Saconnex, Switzerland [www.palexpo.ch](http://www.palexpo.ch)
- The FEFCO exhibition will take place in **Hall 1** and the conference will be held in the Congress Centre just below the exhibition hall
- Free public transport in Geneva: How does it work? When checking in, you will receive the Geneva Transport card which will enable you to use all public transport, free of charge during the entire duration of your stay.
- At the airport visitors can claim an 80-minute ticket at the airport baggage hall for a free bus or train ride to Geneva.
- Geneva tourism information: [www.geneve.com](http://www.geneve.com)

## The FEFCO Awards

The Spotlight is a 6 minute presentation featuring innovations in production and/or a service related to corrugated board manufacturing.

The sessions are fully integrated within the conference programme and open to all attendees. They always generate a great deal of interest amongst our delegates.

The FEFCO jury is composed of members of the Production Committee who choose the winners for the following categories:

- Best Innovation (Gold, Silver and Bronze Award)
- Best presentation
- Sustainability Award
- Special Award for the most inspiring new FEFCO member

The Award Ceremony will be held on Friday 11 October at 13:10

## FEFCO Health and Safety Award

The Corrugated Industry is continuously working to improve health and safety features and procedures. Machine and process safety are crucial elements in accident prevention at our plants. Many incidents can be prevented by designing, installing, operating and maintaining safer machines.

In order to underline the importance of health and safety, FEFCO has decided to honour suppliers that deliver outstanding improvements with a FEFCO Safety Innovation Award. The ceremony will take place during the official programme of the Technical Seminar 2019 in Geneva.

The Safety Innovation Award is a joint initiative of the FEFCO Health and Safety Committee and the FEFCO Production Committee.

The Health and Safety Award Ceremony will be held on Friday 11 October at 10:15.

## FEFCO Lifetime Achievement

For the second time, FEFCO will present awards to managers from the industry in recognition of their lifelong commitment to driving forward technical developments within the corrugated industry.

## FEFCO Influencer days 18-19 March 2019

In this European election year, when the EU institutions are focused on the future of Europe and its political transformation, FEFCO opted for talking directly to influencers to show them the performance of corrugated and its sustainability. FEFCO decided to invite and host journalists, bloggers and online influencers for two days of activities in Brussels.

**Inspired by nature, we want to make all materials sustainable and circular.**

**Rozalina Petrova,**  
Policy Officer at the EU  
Commission

Why? As a circular industry, FEFCO wants to explain the benefits of corrugated - 100% recyclable, bio-based and biodegradable - to broader audiences. With the continuous debate around plastics and plastic packaging it was the perfect time to share these facts, especially since 18 March was Global Recycling Day!

The objective was to develop a media/influencer network in order to better amplify our messages online. FEFCO also wanted to strengthen relationships with a core group of influencers and encourage the participants to share the benefits of

corrugated packaging with their wider networks.

### **Who were they?**

- 4 influential trade press journalists from Packaging Europe, Packaging News, European Supermarket Magazine, Gazeta Prawna
- 5 bloggers and influencers on sustainable living (also engaged with CPI UK)
- 2 NGOs: Zero waste Europe, Zero Waste Week
- Think Tank: European Policy Centre

Visit of the VPK recycled paper mill

Patrick Leclercq - VPK corrugated business unit Manager

**What were the results?**

- Increased social media visibility of the FEFCO messages to a wider target audience
- 165 posts on the FEFCO social media channels
- Increased number of impressions thanks to high numbers of tweets and posts
- High activity around the event hashtag #FID2019 and #circularbynature
- Increased conversation engagement during the event (3.1 K)
- Relevant interaction from MEPs, EP Policy Advisors and numerous mentions by stakeholders, media and influencers.
- Wide press coverage

FEFCO's Influencer Days emphasised the importance of reducing, reusing, and recycling for consumers and for businesses and the fact that the corrugated industry is an essential player and model for a Circular Economy.

On the first day, after a long journey, FEFCO welcomed the participants to

Visit of the VPK paper mill and corrugated Packaging plant in Dendermonde near Brussels. The visit was hosted by Patrick Leclercq (corrugated business unit) and Alexis Zenner (business unit manager for VPK Paper).

its office. Influencers got to know each other, some of them only knew each other virtually! The FEFCO team then briefly described Corrugated, its missions and benefits and emphasised its recyclability. "We want every fibre back," said FEFCO General Secretary Angelika Christ. "Give us your used packaging, and we'll make new boxes out of it."

The participants were impressed by their visit to a VPK mill and corrugated board plant and could see for themselves how recovered paper is transformed back into new packaging; this was a concrete introduction to the paper recycling process.

The tour was guided by Patrick Leclercq (Business Unit Manager VPK Corrugated) and Alexis Zenner (Business Unit Manager VPK Paper). What we saw after the first day was that there is nothing better than

going out and seeing things with your own eyes!

At the end of the day, after a enjoyable dinner in Brussels, participants were exhausted but engaged. We thank them for bravely enduring FEFCO's intensive programme!

On the second day, FEFCO organised another exciting programme including a visit to the European Parliament and to DS Smith Brands & Experience Office. The influencers were impressed by the top floor view of the EU Parliament where Uroš-Valentino Saraja, Assistant to MEP Davor Škrlec (European Parliament), hosted the group. The visit was further appreciated after the lively discussion on policy issues with Rozalina Petrova, Policy Officer at the EU Commission on essential topics such as the circular economy, separate collection, recycling, and food waste.

The final activity of day two was a trip to the Brand & Experience Centre of DS Smith, located in the historic Tour & Taxis building, a former postal warehouse.

This was certainly the right place to be for an overview from DS Smith experts and designers on the latest e-commerce packaging trends. They learnt how to design a parcel effectively to avoid unnecessary space and protect the goods in the best way. During the visit, influencers had the opportunity to discover many other complex situations in which corrugated packaging demonstrates its ability to catch the attention of consumers, to protect goods in the right way, striking the right balance between over-packing and under-packing.

The day ended with an 'Easter Egg' challenge. Participants had to pick the right packaging for a hard-boiled egg that would be able to withstand the harsh handling of packages along multiple touch points of the supply cycle.

### What did FEFCO learn from this experience?

First of all, the days were a success in terms of organisation, the smooth running of the programme, atmosphere among participants, and the members who helped FEFCO organise the visits. FEFCO would like to thank everyone involved in this programme, the participants and the organisers.

Secondly, nothing works better than hands-on experience and concrete

examples. Words cannot compete with the real world.

Finally, FEFCO would like to repeat the initiative and continue to strengthen its ties with a network of journalists, packaging and sustainable experts, designers, and people inspired by sustainability, who are willing to spread positive news about corrugated and recycling.

FEFCO also counts on you to spread the word to your network. Why don't you organise such an event yourself?

**If we take inspiration for the whole economic model from nature, we cannot fail. That is the driving force of the circular economy. Such a concept makes quality of life and sustainability possible.**

**Uroš-Valentino Saraja**  
Assistant to MEP Davor Škrlec

In front of the virtual store at DS Smith Brands & Experience office

# Highlights from the European Packaging Forum

FEFCO was Gold sponsor of the first European Packaging Forum (EPF) for Fruit and Vegetables in Düsseldorf on 5 and 6 June 2019.

Approximately 200 participants and 10 Exhibitors visited this interesting event organised by **Fruchthandelsmagazin** a leading German Fruit & Vegetables trade magazine.

The focus this year was on the sustainability of packaging and environmentally friendly alternatives to plastic packaging.

The role of packaging is to protect and pack goods, but it should also be used to sell the product and be informative for the consumer. Corrugated packaging is flexible enough to fulfil requirements on sustainability, circular economy and product protection to prevent food waste.

At the conference, Thomas Maiwald, Market & Environment Director presented

the CFQ-standard, the new food contact packaging guideline and the "tray selector", a convenient web-based tool that enables the easy selection of the most appropriate corrugated tray for every type of produce.

For the Fruit and Vegetable sector, packaging is coming more and more into focus because retailers and consumers are creating pressure to find new packaging solutions. Some interesting developments are now available for berries and soft fruits which will facilitate the substitution of plastic by paper-based solutions.

The FEFCO stand was a popular place to visit and created a lot of attention thanks to the table football and the attractive corrugated apple-box give-aways. All these were in line with our Circular by nature campaign and messages.

The feedback from most forum participants was very positive. The "packaging journey" is not over, it is just starting, and the F&V professionals need more information and knowledge about sustainable packaging solutions.

Some highlights regarding this event are available on YouTube. Just search for the European Packaging Forum 2019 page!

### ICCA Announces Officers for 2019-2020

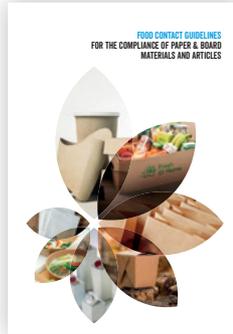

**ICCA** The International Corrugated Case Association (ICCA) Board of Directors elected officers for the 2019 – 2020 term at their Board of Directors Meeting held 23 May 2019 at The Breakers in Palm Beach, Florida. Chairman Tom Hassfurther from the Packaging Corporation of America (PCA) and Second Vice Chairman Michael Lefave of Kruger Packaging LP will remain in their positions. Jan Klingele, Chief Executive Officer of Klingele Papierwerke GmbH, was elected to First Vice Chairman.

The next election of officers will occur during the Association's Board of Directors Meeting in May 2020.

## New Publications

### Food Contact Guidelines

In March 2019, FEFCO in cooperation with the paper & board supply chain, CEPI, Cepi ContainerBoard, CITPA and other associations developed the new Food Contact Guidelines. The document replaces the existing Industry Guideline (2012).

It covers paper, paper packaging and tissue. Secondary and transport packaging are also included. The Food Contact Guidelines is a self-regulation for the paper and board industry.

### LCA

In May 2019, FEFCO and Cepi Container Board launched the new 2018 LCA brochure.

Every three years FEFCO and Cepi ContainerBoard issue a report and a database of life cycle inventory (LCI) data for corrugated base papers and corrugated products. The goal is to provide high quality and transparent LCI data for use in life cycle studies.

This ninth 2018 report shows substantial improvements and demonstrates the efforts made by the European Corrugated Industry and its paper suppliers to lower their impact on the environment.

Details of the 2018 report can be downloaded at: [www.fefco.org/lca](http://www.fefco.org/lca)
